

## LAVENDER POMANDER

Place 1/2 pound lavender buds on wax paper. Cover foam ball with craft glue; roll in buds to coat. Dry overnight.

Knot 4 same-length strands of raffia in center; position knot on ball and wrap strands around opposite sides; knot tightly. Repeat, alternating position of strands so ball is wrapped like a present, as shown.

To finish, hot-glue dried lavender and roses, ivy and baby's breath on top as desired.
